

Hooks to Holdings

with booksinprint.com & globalbooksinprint.com

Enables you to search your library's catalog

For libraries that have Z39.50 compliant catalogs with ISBN, ISSN, LCCN or Title Search capabilities.

Introduction

This feature enables library staff members and/or patrons to see if a title they've found in **booksinprint.com** or **globalbooksinprint.com** is located in their library. First, the **license administrator** must establish a **profile** (see below for easy instructions). Once the profile is created, users simply highlight the title and click on **Search My Library's Catalog** in **booksinprint.com** or **globalbooksinprint.com**. If a library has a consortium account and has several catalogs, users can choose which catalog to search.

When users select a title, they arrive either at a drop down menu that lets them choose a catalog (if more than one is available) or at a screen that lists the library's holdings for that title. Users can view search results in a **List**, in the **Full Description** format, or in **MARC21** format—simply by clicking a tab. This enhancement offers benefits to everyone using your subscription.

For Professionals

- ▶ Collection Development—search booksinprint.com by subject, or search for award winners, titles with reviews... then easily check Hooks to Holdings to verify which titles you own and which ones you should purchase.
- ▶ Acquisition—Quickly check if a book has been ordered, or if it is frequently out and needs multiple copies.

For Patrons

- ▶ Search the full breadth of booksinprint.com remotely or in the library, and then see if the library has the book you need.
- ▶ E-mail a list of books to reserve, or a request for titles that are needed—right from booksinprint.com to the library.

OCLC and WorldCat

NOW you can link to the holdings of libraries across the country through a new seamless link to OCLC's WorldCat.

How to Establish a Profile:

Your License Administrator will need to do the following:

- (1) Click on MY ACCOUNT on the top navigation bar.
- (2) Click on the Detailed Account Information link and log on using the license administrator user name and password.
- (3) On the new page that appears, click the link for create or modify your Z39.50 Catalog Profile for Hooks to Holdings (Search My Library's Catalog) Profile.

The screenshot shows a web interface for account administration. It includes several sections:

- Admin Username:** [Text input field]
- Admin Password:** [Text input field]
- Patron Initiated Requests should be directed to this E-mail Address:** [Text input field]
- Patron Requests Policy:** [Dropdown menu]
- Comparison Shopping:** - [booksinprint.com](#) now gives user the ability to comparison shop online bookstores when viewing the full description of a record. To disable this function, select OFF.
 ON OFF
- Alltris Shopping:** - [booksinprint.com](#) now gives user the ability to search and shop Alltris' Rare and Out of Print Books online when viewing the full description of a record. To disable this function, select OFF.
 ON OFF
- Lists Creation:** - [booksinprint.com](#) now gives user the ability to enable or disable list creation. If you choose DISABLE, you will completely disable the ability to create, print, send or download lists.
 ENABLE DISABLE
- Click [here](#) to access Monthly Usage Statistic Reports**
- For Libraries, click [here](#) to create or modify your Z39.50 Catalog Profile for Hooks to Holdings (Search My Library's Catalog)** (This link is circled in red in the original image)
- Click [here](#) to create or modify your Order Download Profile**
- License Administrators can modify the inactivity time-out for their licensed users**
- Time Out:** [Dropdown menu showing 40 Minutes]
- License Administrators can customize the Logout URL address**

Local Holdings Data

Does the Z39.50 server for your local system return holdings information when searched? yes no

What record format does the server use to return holdings data?

If your server returns holdings information in a USMARC record please indicate the tags and subfields the data appears in.

How to Establish a Profile, cont.

(4) Complete the profile page. If you are unfamiliar with the settings of your catalog, please check with your technical services manager. For consortium accounts with multiple catalogs, select the **NEW PROFILE** button to create additional profiles.

If you need additional help please call **Bowker Technical Support at 1-800-323-3288**.

Once a profile is saved, users can select **Search My Library's Catalog** on the **Search Results** page, **Full Description** area and its tabs, and the **Lists** area to launch a search of their catalog.

Currently, booksinprint.com searches **Z39.50 compliant** catalogs that allow remote searching on **ISBN, ISSN, LCCN** or **Title** Search.

Here you determine how precise or "fuzzy" you would like the searches run against your OPAC to be. If you only wish to search on ISBN, leave the optional fields (ISSN, LCCN, Title) blank. However, if you want to better match the "work" regardless of format (ex: hardcover, soft cover, etc.) include these additional fields in your profile.

HOW THIS FEATURE WORKS

► From the SEARCH RESULTS screen:

Once you've retrieved results from a search on booksinprint, you can then search your catalog by selecting the "search my libraries catalog" link. You can search up to five titles at a time.

Search Results: Displaying 1-25 of 1472 results

► From the FULL DESCRIPTION screen:

You'll arrive at a screen like the one here giving you information about the title listing(s) available from the library catalog you selected. Note that the amount of information retrieved depends upon your automation vendor. Not all systems provide status of holdings information.

► From within a LIST:

Select the titles (up to 5) that you wish to search against your catalog. Then select **Search My Library's Catalog** from within the **Select an Item Action** drop down box, and follow the same procedure outlined on the preceding page.

The screenshot shows the Bowker's Books in Print website interface. At the top, there is a navigation bar with 'HOME | MYACCOUNT | LISTS | HELP | LOGOUT'. Below this is a search bar and navigation links for 'Search', 'Browse', 'Publishers', 'Awards', 'Bestsellers', and 'Bio's'. The main content area displays a 'PatronList:31 Records' with a 'Back' link. There are two dropdown menus for actions: 'Actions for the entire list:' and 'Sort List By:'. The 'Sort List By:' dropdown is set to 'Added to list'. The main list of books has columns for 'TITLE', 'AUTHOR', 'PUBLISHER', 'ISBN/EUPN', 'FORMAT', 'DATE', and 'PRICE'. The first item, 'The Crucible', is selected with a checkbox. A dropdown menu is open over this item, showing options like 'Order Download', 'Order Direct - Brodart', 'Search My Library's Catalog', 'Add/Edit Notes', 'Change Quantity', 'Move Selected Titles To...', and 'Copy Selected Titles To...'. The 'Search My Library's Catalog' option is highlighted. Other items in the list include 'Death of a Salesman', 'Miller', and 'Echoes down the Corridor'.

Troubleshooting

First, contact your account's License Administrator. (To find out who your License Administrator is, simply select the MY ACCOUNT button on the top navigation bar.)

If a "Hooks to Holdings" profile was created, the License Administrator should verify that the profile information was filled out completely and correctly. We strongly suggest that License Administrators review this profile information with their Z39.50 staff expert or library automation vendor. If the profile information is correct, there may be several reasons why the search does not work:

- The local server at the library could be down, busy, or experiencing heavy use.
- The local catalog may not support ISBN remote database searching.
- Records chosen to search do not contain ISBN numbers.
- The port number in the profile is not an accessible port number.
- The site is experiencing heavy use, creating response time delays.

For more information, please call our technical support line at 1-800-323-3288.
